iSTRADA
BY SYSDYNE

DELIVERY MANAGEMENT. SIMPLIFIED.

iStrada® by Sysdyne allows producers and their customers to collaborate seamlessly. The web portal provides the ability to track and monitor deliveries in real time, while the driver's app updates the portal automatically and delivers the hot ticket electronically.

FEATURES

PDF

E TICKET

GPS/TRUCK TRACKING

iStrada offers Real-Time GPS truck tracking for managers to view Driver location and status information.

E-TICKETING

The app automatically updates the truck status, water content, w/c ratio, and inspection results to the paperless ticket.

COMMUNICATION

Information is shared and updated in real-time to significantly improve delivery tund communications.
